OVERVIEW OF EVENT

The Annual Affiliate's Dinner began as a way AIA Affiliate Members could support local architects and their customers while marketing their companies and products at the same time. In its history, the Affiliate Board and its members have been a very active and strong group within AIA in the Phoenix Metro area. Through their own initiative, AIA Affiliate members have created an event where they provide the evening's speaker at a less traditional chapter meeting, supplemented the cost for architects to attend, and designed an environment for affiliates and architects to interact.
