[9] Mummy Mountain Residence

6308 East Hummingbird Lane in Paradise Valley - 85253

This 5000 square foot residence rests politely in the resplendent hills of Paradise Valley and was both a remodel and addition.

The home was rejuvenated by organizing existing rooms, adding stunning new spaces and providing a fresh face for the whole house. Brilliant daylight, open space and regional character give this home a confident contemporary style.

The new design is expansive, attractive and amiable to desert living

Architect: Kendle Design Collaborative

Contractor: Mackos Construction
